

DOORS OPEN TO OUR NEW RETRONIX USA FACILITY

Retronix bring 30 years of experience, technical know-how & full suite of component rework services to the USA.

Retronix is proud to share our expansion into the US with the opening of our facility located in **Pflugerville - Austin, Texas**. Retronix has long supported our US customers & our new facility will allow us to optimise our service delivery to this base & further deepen our activities in the market.

OUR US MARKET OFFERING

The architecture of the facility has been carefully designed around our processes, ensuring a seamless flow of people, material, product, & information. The market now has full local access to our Retronix solutions including, Retinning, Component Reclaim, Alloy Conversion, and Reballing.

- ✓ Quicker turnaround times
- ✓ Heightened levels of security
- ✓ Exceptional quality – AS9100 certified & will be ITAR compliant
- ✓ Increased capacity
